Density: α is the area above q_α
area $1-\alpha = 0.95$
area $\alpha = 0.05$
-2
0
$q_{0.05} = 1.645$
CDF read backwards: $F(q_\alpha) = 1-\alpha$
$1-\alpha$
start at $1-\alpha$
on the vertical axis
$F(x)$
0.5
go across to the curve,
then down: read off q_α
